Lunenburg Dog Park Society
C/O Karen Lewis

Recently we were approached by Karen Lewis on behalf of the Lunenburg Dog Park Society. It is with great happiness and pleasure that I write this letter to extend our full cooperation and support to the dog park project. Being a dog owner myself, I believe this project will not only benefit the the Town of Lunenburg but the surrounding communities as well.

Nature's Reflections Landscaping Ltd. prides ourselves on being a community-minded business. It takes a whole community to come together to make such projects come alive. For this reason, among many more, is why we pledge our support by offering our landscaping services for the proposed dog park.

We are pleased to be making the Lunenburg Dog Park Society our community involvement project partner for the 2013 season. Our services and products will be donated to help make the dog park a reality. We look forward to working with all parties involved and look forward to a 2013 opening year for the dog park.

Kindest Regards,

Ben Floyd
Owner and President
